

NOVANT HEALTH EMPLOYER SOLUTIONS

Delivering wellness
solutions for
your business

Your partner for workplace health and well-being

As part of a world-class healthcare system, Novant Health Employer Solutions provides innovative healthcare solutions to employers, improving employee health and well-being while advancing organizational goals.

We are a community leader with nearly 25 years of experience partnering with a wide range of employers; and we have developed a deep understanding of the unique challenges faced by communities and businesses. This insight enables us to build strategic partnerships that deliver impactful results.

We tailor our products and services to your industry, goals, demographics and culture — which, in turn, helps you improve access to healthcare services, workplace productivity and job satisfaction. We listen and adapt our approach based on your needs to create effective and sustainable programs.

We believe that together, we can support a thriving community where businesses like yours succeed.

On-site wellness centers, just one of our popular service offerings, bring customized healthcare directly to your employees. Long-term wellness is more likely to take hold when employees are engaged in the process and services are easily accessible. Think of our on-site wellness center as your own private medical clinic for your employees. Our centers are staffed by a nurse practitioner or physician assistant, under the general supervision of a licensed physician, so you always have access to our expertise.

Our job is to help your employees stay healthy so your business can continue to thrive.

Our results are backed by real data. We offer outcomes-based wellness program management and robust data analytics. You don't have to guess at your success.
